

Robert Gilbert, P.O. Box 299, Liberty Corner, NJ USA 07938

bob@gilbertweb.com

Please order by Stock #. Actual shipping will be charged and determined based on total order and shipping method requested. \$0.75 will be added to each order for packaging: I use corrugated packaging for safety. Shipping is at the buyers risk: insurance is optional. Payment may be made by paypal, US postal money order or checks: all checks must clear before shipping.

Several tokens have die varieties: indicated by the v# and information within the parenthesis. I've tried to briefly describe the identifying information of each variety. Many of these die varieties have very minute differences. Some tokens also have supplemental letters or numbers stamped or etched into the token. I have indicated these in the brackets: [#]. Some people collect each of these numbers so I've listed each of these separately. Contact me if you have questions. Photos are available for all tokens (I will have to take pictures of any Goetz tokens but others already exist). All tokens are in collectable condition except where specified.
